Growth Prospects	C	Systems & Processes	C
Asset Quality	C	Industry Outlook	C
Risk Factors	C	Owner Dependency	C

## Executive Summary

Quantifi Partners is currently valued at approximately \$4.04 million, determined by applying a valuation multiple of 4.2x to its Adjusted EBITDA of \$962,356. The overall score of C across all value drivers indicates a business that is stable but has significant areas for improvement. Each value driver, including financial performance, customer concentration, management team, competitive position, growth prospects, systems and processes, asset quality, industry outlook, risk factors, and owner dependency, has been scored as C. This suggests that the company is performing adequately but lacks distinct competitive advantages or growth factors that could elevate its market position and intrinsic value. The uniformity in the scores indicates a balanced yet unremarkable performance across the board, which could limit potential interest from investors or acquirers seeking standout features in a business.
